

# Green Class

It has been another busy term in Green class with visits to China, London and the rainforest!

We collected our passports and visited China for the Chinese New Year celebrations. We enjoyed the food in the Chinese café and linked the theme day to our DT topic by making Chinese dragon puppets.

Next stop was London where we learnt all about the Great Fire. The pupils have really engaged with this topic making old fashioned houses, writing with quills like Samuel Pepys and finding out about life in 1666.

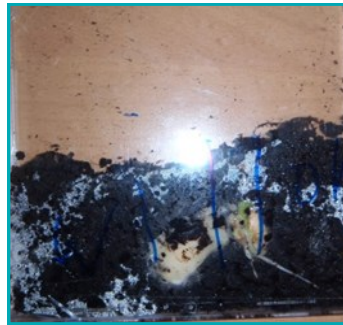

In science we have been learning about plants and conducting experiments. We planted beans in CD cases so we could closely observe what happened and we were amazed at how quickly they grew! We got into teams and made obstacle courses for our potatoes to see how good they were at finding the light, but we do not have a winner yet. Will it be Team Spud, Team Waffles and Sauce or Team Mash?

Day 1

Day 4

Day 10

Plants continued as a theme into our art work where we studied the work of Andy Goldsworthy. The pupils have been collecting natural resources and incorporating them into their work which has included sculpture, weaving, printing and tile making.

Our final trip was to the Living Rainforest in Newbury. The pupils had a fantastic day exploring all of the sights and sounds. Some of the plants were enormous and some of the animals were really noisy. Look closely at the photos to find the animals and children -they are not that easy to find!
