

Blue Class

We have been learning about China. We practised saying hello and writing some words. Our favourite part was cooking and eating Chinese stir fry! We had to chop lots of different vegetables very carefully.

We have also been learning about Holland - it is a very flat country and people like to ride their bikes. We also made windmills and tulips. We enjoyed baking Appelflappen and apple and cinnamon muffins.

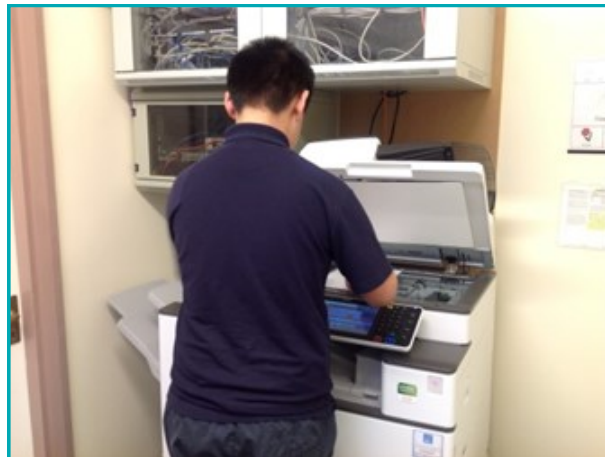

We took part in the Dutch Easter tradition of decorating hard boiled eggs and rolling them down a hill to see whose went the furthest.

It was great fun!

Some pupils in Blue class are working hard towards their ASDAN Transition Challenge accreditation. Pupils have had to learn where IT is used around the school and how to use different pieces of IT equipment.

We really enjoyed observing the Living Eggs and learning about life cycles as we watched them hatch into gorgeous fluffy chicks!
