

Blue Class

Blue class enjoyed a trip to Laverstoke Park Farm. We learned about where our food comes from before it gets to the shops. We explored the gardens where we saw lots of herbs, fruits and vegetables growing. We loved stroking the buffalos and enjoyed feeding some milk to the buffalo calves!

We have also been learning to grow our own seeds and beans in school.

This term we have also studied castles. We named the key features, looked at who lived there and made weapons. Everyone enjoyed making catapults and using the bows and arrows.
