

# Blue Class

Our topic this term has been The Rainforest. We have been researching the animals of the rainforest through music, stories, games and art.

In science we have stayed slightly closer to home than the rainforest and have been out and about in the school grounds observing minibeasts and finding out about where they like to live and how they move.

In literacy we have enjoyed reading 'Handa's Surprise'. We have been working on communication skills through retelling the story and the characters involved. We also worked on our fine motor skills and produced a very colourful display with our work.

We continue to develop our personal, social and independent skills in the community by regular trips to the supermarket, library and café.

We joined the rest of the school in raising money for Children in Need. We wore non-school uniform and made gingerbread men and cakes to sell to help raise money. We enjoyed spending our money buying things that others had made too.

We have been learning a lot about good behaviour and what makes a good friend. We have enjoyed learning to work and play together.
