

# Blue Class

It has been another busy term here in Blue class. We have spent time learning about shape in maths. We can now explore and name different 2D and 3D shapes. We have also been learning about the relationship between different sizes by building towers.

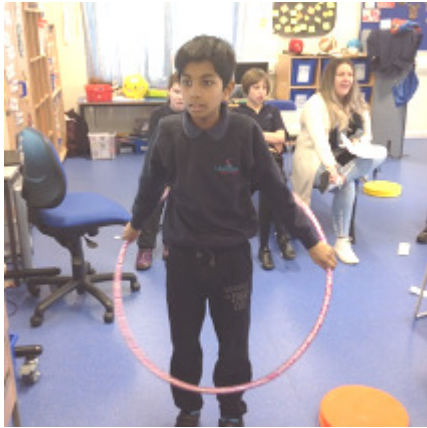

We enjoyed having the opportunity to play table cricket for a 6 week block this term. We have developed our hand-eye co-ordination as well as turn taking skills.

In food technology lessons we have been learning new skills such as using the measuring scales and some of us even had a go a flipping a pancake!

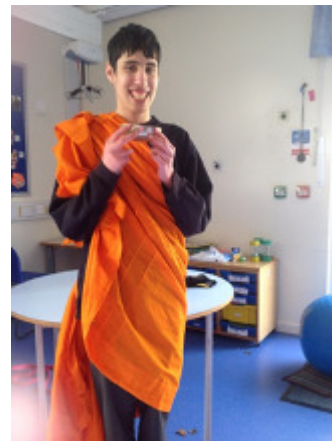

We have been learning to use positional language such as in, on and under. Here we are getting in hoops and on wobble cushions!

As part of our PSHE work we have been learning to find new ways to relax.

We have also had the chance to experience themed days such as Chinese New Year and Buddhism.

Finally, we were fascinated to observe the Living Eggs as they are starting to hatch. We cannot wait until next week when we can hopefully hold them and help feed and clean them out.
