

# Blue Class

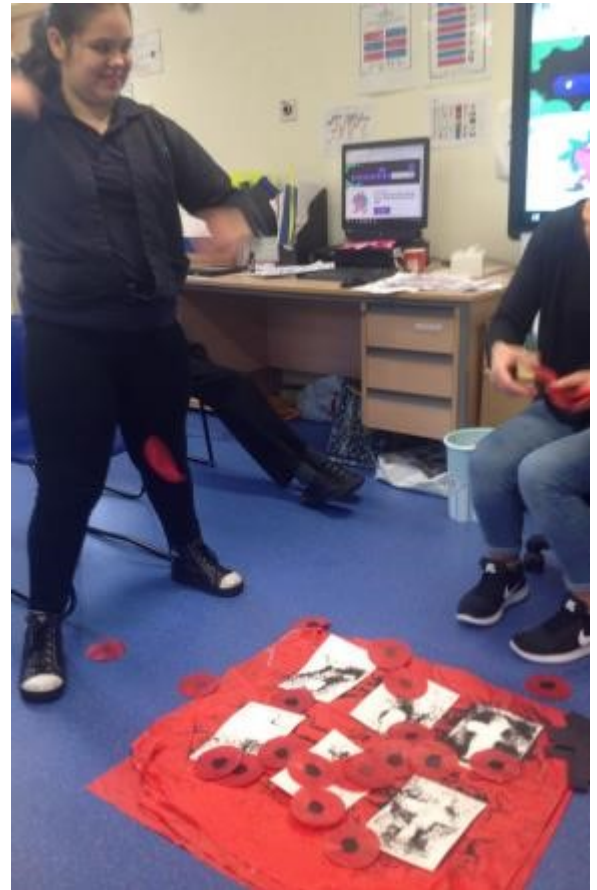

Our topic this term has been "Predators and Prey". We have been making and exploring different habitats and learning which animals live there. We have also been learning some key scientific words including camouflage, herbivore and carnivore.

In maths, we have been learning about shapes and their properties. We have also been building with 3D shapes and learning their names.

We love bucket time in Blue Class! We have been exploring different celebrations this term, including Halloween, Remembrance Day, Diwali and Christmas.

We have been focusing on our spreading skills. We started by spreading butter on to toast and then adding a topping of our choice. We moved on to making cheese sandwiches, using our spreading skills. We also really enjoy testing our creations at the end.
