

# Blue Class

We have been learning about King Henry VIII this term.

We have been preparing for our Tudor banquet by learning about food that the Tudors would have eaten.

We were lucky enough to visit King Henry's Palace, Hampton Court. We walked around the kitchens and prepared some herbs. We even saw King Henry's Crown! We had an amazing day.

In computing, we have been learning how to code using the bee-bots. We have been programming the bots to move forwards, backwards, left and right and even working out how to move them around a map.

For World Book Day, Blue class chose the theme of Peter Pan. We spent the whole day dressed as characters from the story and acted out different scenes using stick puppets that we had made.

I think you will all agree, we look fabulous!
